

Plate Carrier Gen 2

Code:CL553

The Plate Carrier Gen2 is a modular vest designed to carry a variety of VX System and MOLLE compatible accessories. With quick release buckles throughout as well as multiple hook and loop panels, you can create a unique set up that fits your needs. Fully adjustable mesh vented sides with quick release clips and removable shoulder pads make this vest comfortable and easy to adjust. The shoulder pads also feature bladder / comms retention. On the inside we added padded front and back panels to extend the comfort of the vest. Front of the Plate Carrier Gen2 features zipped admin pouch and hook and loop ID panel.

- Quick release buckles throughout
